THE STORM FRONT

**NEXT ISSUE:
MARCH THE 13TH #3**

I get asked a lot from fans which books I follow. One of my favorites is none other than EX MACHINA, written by the ever wry and supremely talented Brian K. Vaughan with art by the remarkable Tony Harris. For those of you still clueless about this literary gem, EX MACHINA is about a former superhero who decides he can better serve the people by becoming the mayor of New York City than as a costumed vigilante. It's serious, it's sardonic, it's thoughtful and intriguing and it's the complete package in that the writing and art just fuse together to make a perfect whole.

What really makes the book such a great read is that it manages to deal with tough, timely issues while remaining wholly entertaining, captivating and above all, fair-minded. There's no other book like it on the market and if you are already a fan, make sure to check out EX MACHINA: INSIDE THE MACHINE this February. It's a fantastic glimpse in the visual creation and world of EX MACHINA featuring pages and pages of Tony Harris's art and sketches with an introduction by Brian himself.

And if you want to learn more about what these popular creators are working on, I recommend checking out their websites. Brian has a myspace page at www.myspace.com/briankvaughan and Tony can be found at www.jollyrogerstudio.com.
